1871.

REPORT.

STATE OF KANSAS, AUDITOR'S OFFICE, }
TOPEKA, NOVEMBER 30th, 1871. }

*To His Excellency, JAMES M. HARVEY, Governor of the State
State of Kansas:*

SIR: In compliance with the Constitution and the laws of the State, I have the honor to transmit to you my annual report for the eleventh fiscal year, ending November 30th, 1871, embracing a correct statement of the condition of the finances of the State, and abstracts of receipts and disbursements of the several funds.

The total receipts of the treasury during the past year including the balances of the previous fiscal year, amount to \$1,091,133,87, and the disbursements to \$951,448,74, leaving a balance of \$143,516,49 in the treasury on the 30th day of November, 1871, belonging to the several funds, as follows:

General revenue.....	\$ 408,40
Sinking fund.....	9,747,20
Interest fund.....	41,853,96
Annual school fund.....	10,372,53
Permanent school fund.....	53,661,64
Penitentiary building fund.....	3,272,00
Military fund.....	7,918,10
Insane Asylum building fund.....	20

AUDITOR'S REPORT.

Capitol building fund.....	559,16
Railroad fund.....	15,723,30

The total liabilities and resources of the State, a detailed statement of which will be found under the proper head, are as follows :

Liabilities.....	\$1,403,068,00
Resources	782,669,88

Showing a decrease of our liabilities against the preceding year of \$190,237,54. This gratifying result ought to be renewed during the coming year, by pursuing a liberal but economical policy in the expenditures of the State created by the Legislature.

BONDS.

During this fiscal year the first bonds of the State which became due and payable, were redeemed by the sinking fund, and constitute the bonds issued to the Agricultural College to the amount of \$5,500.

In connection with the proper levy for the sinking fund I recommended in my report of the previous year a rigid and strict registry, of all bonds issued by Counties, Townships, School Districts, Cities and Towns, in the Auditor's office, and also a constitutional amendment limiting the issue of bonds to a certain percentage of the taxable property. It is certainly gratifying to me to know, that our best citizens all over the State are now endorsing this measure, and even beyond the border of our State this policy is about to be inaugurated. I sincerely hope that this all-important matter will receive its full share of attention at the hands of the Legislature.

ASSESSMENT AND TAXATION.

From the tabular statement annexed to this report it will be seen, that the total amount of taxable property for the present year is \$108,753,575,48, an increase of 16 millions over the preceding year, or in other words, very nearly the same increase as in the previous year.

The State Board of Equalization in equalizing the assessments of the different counties, raised the total assessment nearly 3 per cent, and in connection herewith I would renew my recommendation of the previous year concerning the creation of a Board of Assessors, consisting of a sufficient number of the best informed and well qualified citizens of the different sections of the State, (similar to the Board of R. R. Assessors). Under the guidance of such a Board the assessment could certainly be made nearer equal and just than under the present arrangement.

The State Board of Equalization, as now constituted, does not, and cannot possess, the necessary knowledge of values in every portion of the State. Its work is at best, nothing more than conscientious belief, and not a knowledge of facts.

Wallace County, although organized since the 25th of August, 1868, and having been represented in the Legislature for three years, has never returned any assessment, and consequently never paid anything towards the expenditures of the State, causing besides this the loss of the proper amount due from the Kansas Pacific R. R.

Cherokee County, after having procured an extension of time for a new assessment for the year 1870, through the Legislature last winter, failed to make a return of the new assessment, giving as a reason, that the assessment books and record had been stolen from the County Clerk's office.

In regard to the delinquent taxes due the State from different counties, as far back as the year 1861, I can only renew my suggestions of the previous year. That is, there ought to be some provision made by which these delinquent taxes should be definitely settled and closed after a certain time has elapsed. If the present mode of payment is allowed to go on, it will, at the present decreasing rate paid into the treasury yearly, take about 40 years before the first assessment of the State is fully collected. Laws allowing such a state of affairs should not exist in any State.

The same facts present themselves in regard to double

and erroneous assessments." Under the present law, such credits can be demanded as long as there is a dollar of delinquent taxes to be paid. While it is just and proper that such credit should be given if the facts warrant the same, it should certainly be done within a certain definite time. The present laws in regard to "assessment and collection of taxes" need most certainly a thorough revision.

SCHOOL LANDS.

The law regulating the sale of school lands needs some attention; nearly every county in the State has its own version of the same and works accordingly, so that no harmony in the records can possibly be established. Reports come irregular, and in many instances have been neglected altogether. I would suggest, that all reports of sales of school land should be made monthly; also the payments into the State treasury at the same time. This would simplify their work and enable County officers to make reports without errors and irregularities. Before such a change is made, however, it becomes imperatively necessary to appoint some thoroughly competent person to review the records of the sale of school lands in every county, and harmonize them with the records kept in the Auditor's office. I am moreover fully convinced that the interest of the State would be far more advanced if the sale of school lands was immediately stopped, and the fund now outstanding properly cared for. Every report brings long lists of sales of school lands at \$3 per acre, bought in large tracts by individuals for the purpose of speculation. Transfers of certificates of purchase invariably show that six months or one year after such purchase, such lands were again sold at an advance of from 50 to 100 per cent. This percentage can be saved to the school fund if the Legislature will take the necessary steps for it.

In accordance with an act of the Legislature of last winter, the State bonds belonging to the permanent school fund, amounting to \$449,075, were consolidated into twelve bonds of similar amount, and the original bonds cancelled and destroyed.

AUDITOR'S REPORT.

7

STATE INSTITUTIONS.

Under the proper head a statement of the Agricultural College fund will be found. The balance on hand, was by the Treasurer turned over to the Board of Regents of that Institution, in compliance with an act passed at the last session of the Legislature.

The State Penitentiary fund fell short of the necessary means to the amount of \$26,211.09. Proper vouchers having been presented and the appropriation exhausted, certificates of indebtedness were issued to the Warden for the amount, in accordance with law. This deficiency seems to be caused by an unprecedented increase of criminals during the year.

Statements hereto attached, I believe, give a full and complete exhibit of the financial condition of the State at the close of the fiscal year, November 30th, 1871.

I have the honor to be your obedient servant,

A. THOMAN,

Auditor of State.

AUDITOR'S REPORT.
